

# MITE is Changing the Way Businesses Talk!

## Is the Sales Report Ready? Then "MITE It To Me!"

With MITE, the industry's most powerful and easy-to-use data communications program, the world of on-line information is as close as your computer. With the power of MITE, you can automatically log-on to your favorite information service, and capture the information for later editing or analysis. Why bother with overnight express delivery services when you can send documents anywhere in the world in seconds. With MITE, you have the choice of several different error checking protocols including the industry standard

XMODEM protocol with CRC and Batch file capabilities. With the addition of the MITE + Terminal Emulation Module, you can turn your computer into any of over ninety different terminals including a DEC VT100, IBM 3101 or Televideo 950.

MITE is available for over 130 different computer systems (CP/M and MSDOS), including the IBM PC/XT/AT, AT&T 6300, Sanyo 555, DEC Rainbow, Kaypro, Televideo and Apple Macintosh.

# MITE

Now Complete  
Terminal Emulation

The MITE series represents the state-of-the-art in data communications and file transfer systems.

## Principal Features:

- runs on either CP/M, CP/M-86, CCP/M-86, MSDOS systems and the Apple Macintosh
- access virtually any asynchronous ASCII system such as The Source, CompuServe, Dow Jones, corporate or university data center
- access electronic mail services such as EZ-Link, MCI Mail, etc.
- can exchange files with a large number of other microcomputers with error checking and recovery
- connect with another microcomputer via telephone line through modems or via a cable directly connecting the two microcomputers
- provided pre-installed for approximately 130 microcomputers
- full dynamic modem control support for most popular auto-dial/auto-answer and manual modems. A partial list of supported modem manufacturers includes: Anchor, Bizcomp, Bytcom, Cermatek, Concord, CTS, Datec, Hayes, Incomm, MICOM, Novation, Prentice, Prometheus, Racal-Vadic, UDS, and U.S. Robotics
- easy-to-use menu system
- multi-level password protection in answer mode
- supports multiple protocols
- a complete interactive HELP feature is provided
- flexible script/batch capability

## Other Important Features:

- all parameters (i.e., baud rate, data bits, parity, etc.) alterable from within MITE
- all configurable parameters may be saved for instant recall
- binary file transfer using several different protocols:
  - MITE - native MITE Protocol which supports multi-file, binary or text transfers
  - XMODEM - to communicate with most RCP/M systems, MODEM7, XMODEM, MODEM80, XMODEM/BATCH, XMODEM with CRC
  - CLINK - to communicate with CLINK, CROSSTALK
  - HAYES - to communicate with Hayes SMARTCOM protocol
  - TEXT - to provide verified file transfers with mainframes
- very flexible text file upload into practically any system
- programmable macro strings which interact with remote system
- internal system commands include DIR, ERA, SIZE, SPACE, REN, COPY and more!
- capability for fully automatic log-on into most systems
- user selectable trigger characters such as break, escape, command, etc. available
- TWX support
- XON/XOFF and other flow control
- unwanted characters may be automatically eliminated
- sophisticated error recovery
- Mycroft Labs utilities are included
- comprehensive and clearly written manual
- tutorials on Introduction to Data Communications and RS-232 Interfacing included
- auto redial available
- unattended operation available under the answer role
- download (capture) session to disk or memory
- shortcuts for frequent users
- FORTRAN program for use on mini or mainframe end is provided

## Terminal Emulation\* with the Optional MITE + Module:

With the addition of the optional MITE + Emulation module, your system can emulate an amazing ninety different asynchronous terminals. Included in that list are such terminals as:

ADDS Regent 20/25/40/60/VIEWPOINT  
 Data General D100/D200  
 Digital VT 100/102/52  
 Hazeltine 1410/1500  
 IBM 3101

Lear Siegler ADM/3A/5/22/23/25/31/32/36/42  
 Televideo 950/910/912/920/925/970  
 WYSE WY 50/200/300  
 Zenith Z 19

\*Terminal Emulation is available for CP/M-80 and IBM compatibles

## Pre-Configured Versions:

### MITE for CP/M-80

Action 500  
 Apple II (Z80 and 80 column req.) CCS 7710/  
 Hayes Micromodem II/Super Serial/ALS  
 Dispatcher, MicroSoft Premium Softcard,  
 PCPI Applicard  
 California Computer Systems 2710/2719 (S-100  
 card)  
 CompuPro Systems Support S-100 Card Inter-  
 facer 1/2/3/4 (S-100 cards)  
 Digital Microsystems Fox  
 Durango  
 Epson QX-10  
 KayPro II/4/10 (all models)  
 Molecular  
 Morrow Micro Decision/Decision I/II/III  
 Northstar Advantage/Horizon/HSIO-4 (S-100  
 card)  
 Osborne I, Executive  
 Otrona Attache  
 PMC Micro Mate  
 Radio Shack II/IV/12/16  
 Sanyo MBC-1000/1100/1150/1200/1250/2000  
 Seattle Computer Products Multi-I/O (S-100  
 card)  
 Sony  
 Teletec System Master  
 Televideo 801/802/803 Portable  
 Vector 3/4/2600/3005  
 Xerox 820,820-II (5.25" or 8")  
 Zenith 89/90/100/110/120/H8  
 Zorba/Z2000  
 And approximately 100 other CP/M-80 systems

### MITE for CP/M-86 and CCP/M-86

Columbia	Leading Edge PC
Compaq	NEC APC
Corona	Seequa Chameleon
DEC Rainbow	Otrona 2001
Durango	Televideo 1603
Eagle PC	Victor 9000
Fujitsu	Zenith 150/160
IBM PC/XT/PC Portable	

### MITE for MSDOS

ACT Apricot	• IBM PC/XT/AT Portable/jr
AT&T PC 6300	• Leading Edge PC MINDSET
• Columbia	NEC APC
• Compaq	Otrona Attache
• Corona	Otrona 2001
DEC Rainbow	Televideo 1603/1605
• Eagle PC	Zenith 100/110/120/150/
Execuport	160
Fujitsu	
GRiD Compass	

• IBM Compatibles

### MITE for the Apple Macintosh

Call (904) 385-1141 for other implementations.

The list price of MITE for CP/M-80 is \$150.00 while the list price of MITE for CP/M-86 and MSDOS is \$195.00.

The list price of MITE for the Apple Macintosh is \$145.00.

Other products from Mycroft include COMPAT, a "direct disk interchange" utility for CP/M and MYHOST, a Host/Online system for CP/M.
